

# HOLDING TANK TREATMENT Liquid or Powder

## Maintain a Clean, Odor-Free & Efficient Holding Tank

The Holding Tank Treatments are enzyme and bacteria laden products that will rapidly break down and digest all organic waste (including proteins, carbohydrates, animal and vegetable fats, starches, oil and cellulose materials). As a result, odor causing materials are eliminated – odor is NOT masked.

Once marine holding tank problems occur, it is usually too late. Repair can be costly and sometimes not possible. Being proactive will avoid these costly inconveniences and will lead to more enjoyable odor-free boating.

**Digests waste for more enjoyable odor-free boating and allows marinas to process clean and safe pump-outs**

The Holding Tank Treatments will provide additional benefits including optimized capacity and reduced long-term cost and premature wear. The introduction of live, safe bacteria and microbes with known functions enhance the tank's biological activity reducing BOD (biological oxygen demand), COD (chemical oxygen demand) and SS (suspended solids).

### Features:

- Eco-safe
- Non-toxic, non caustic and non-hazardous
- Combined bacterial & enzymatic functions
- Safe and easy to use
- Naturally breaks down organic waste
- Maintains ideal bacteria population

### Benefits:

- Reduced odor for improved boating enjoyment
- Reduce frequency in pump-out
- Safe pump-out
- Optimize holding tank capacity
- Eliminate backups
- Reduce maintenance
- Cleans level sensors and preserves plumbing

MARINER'S CHOICE PRODUCTS ARE AN ECO-SAFE BRAND THAT YOU CAN TRUST

# HOLDING TANK TREATMENT

Liquid or Powder

**Directions:** **Liquid Formulation** – For initial treatment use 4 oz (112 ml) per each 25 gal (95 liter) holding tank capacity, then use 2 oz (56 ml) per each 25 gal (95 liter) tank capacity every other day by flushing down head or galley sink.

**Powder Formulation** – Before initial treatment empty holding tank and flush with water, add 2 scoops per 25 gal (95 liter) holding tank capacity, then use 1 scoop per 25 gal (95 liter) tank capacity every other day by flushing down head or galley sink.

**Color:** Clear liquid (liquid formulation)  
Sand color powder (powder formulation)

**Fragrance:** Herbal (liquid formulation)  
Odorless (powder formulation)

**pH:** 6.8 to 8.0 (liquid formulation)  
8.0 (powder formulation)

**Dilution:** Ready-To-Use (both formulations)

**Product Code:** HTT-L-01 (liquid formulation)  
HTT-P-01 (powder formulation)

**Available Sizes:** 35.2 oz. (1 liter) pour bottle (liquid formulation)  
1 lb. (454 g) container (powder formulation)
