Mariner's Choice (MCII) Delivers First Shipment to the Caribbean

Jacksonville, Fla. -- December 2, 2009 -- Mariner's Choice International, Inc. (Pink Sheets: MCII), a North American manufacturer of "green" eco-safe products has recently delivered an initial shipment of 1,500 units from their Vima-San™ Hand Sanitizer product line to the Netherlands Antilles island of St. Maarten.

The prompt delivery for this initial order to Philipsburg Pharmacy, located in St. Maarten's capital city of Philipsburg, was coordinated with the medical community's robust roll-out of their H1N1 vaccination program throughout the island.

Mariner's Choice Vima-San™ Hand Sanitizer is a high quality, natural hand sanitizer with a 99.99% kill rate of germs that works effectively against H1N1 and other common viruses.

This advanced formula product for the company's 'Personal Care Solutions' category, now provides consumers with the Vima-San™ Hand Sanitizer in a smaller container size [of 50 ml], with a product-unique belt clip for ultimate dispensability to those on the go. The Vima-San™ Hand Sanitizer is also available in a 16 oz. pump, 2 ounce squeeze bottles, as well as attractive wall-mount automatic and manual dispensers.

Mariner's Choice Intl. CEO Amie Hingston, comments: "Make no mistake, the growing market penetration that our other product lines have achieved within the company's Recreational and Industrial divisions, represent the majority of our current year-to-date revenues. However, our new Vima-San™ Hand Sanitizer product line is significantly expanding our reach into entirely new industries and sectors such as healthcare and hospitality."

Ms. Hingston continues: "Further, the timeliness of introducing our branded or private-label, hand sanitizer products during today's heightened awareness of the H1N1 virus worldwide, has only increased the company's ability to start expanding the number of global partners, distributors and customers for all of Mariner's Choice International's products."

About Mariner's Choice International, Inc.

Mariner's Choice manufacturers and markets high-performance, eco-safe retail, commercial and industrial products utilizing leading-edge biodegradable technologies. Each product is tested to exacting standards and superior performance levels that often exceed performance capabilities from comparable products that contain harmful compounds or ingredients. Some of the company's "green" product lines employ nanotechnology. For more information, please visit www.marinerschoice.net.
