

Attention: Mariner's Choice

Over the last 20 years, I have owned a few bass boats and have tried many products to clean and polish my boats. Some of these products work fine and some not so fine. I can tell you that your product is by far the best that I have used to date. Not only did your product do just what you said it would do, but I feel that it goes beyond that. My boat truly shines. The water beads up and runs off the windshield and the surface of the boat feels like silk.

I will have no problem recommending your product line to my Pro Staff and to others that I do business with.

Thank you,

Fred Patterson
